

This is the new spelling curriculum, detailing all of the sounds and spelling patterns which should be learned, matched up to the appropriate year group.

There is also an additional list of high and medium frequency words which children should be able to read and spell, by Year 5.

Statutory requirements are sounds which must be learned.

Non-statutory requirements are examples of words which contain these letter sounds.

Spelling - work for year 1

Revision of reception work

Statutory requirements

The boundary between revision of work covered in Reception and the introduction of new work may vary according to the programme used, but basic revision should include:

- all letters of the alphabet and the sounds which they most commonly represent
- consonant digraphs which have been taught and the sounds which they represent
- vowel digraphs which have been taught and the sounds which they represent
- the process of segmenting spoken words into sounds before choosing graphemes to represent the sounds
- words with adjacent consonants
- guidance and rules which have been taught

Statutory requirements	Rules and guidance (non-statutory)		Example words (non-statutory)	
The sounds /f/, /l/, /s/, /z/ and /k/ spelt ff, ll, ss, zz and ck	The 'f', 'l', 's', 'z' and 'k' sounds are usually spelt as ff , ll , ss , zz and ck if they come straight after a single vowel letter in short words. Exceptions: if, pal, us, bus, yes.	off puff huff cuff cliff sniff snuff stuff well bell	all fall call back luck kick sock lock shock stock chess	buzz fuzz fizz frizz jazz miss kiss hiss less mess dress
The /ŋ/ sound spelt n before k		bank thank think ink pink hunk dunk	link wink honk sunk tank stink	
Division of words into syllables	Each syllable is like a 'beat' in the spoken word. Words of more than one syllable often have an unstressed syllable in which the vowel sound is unclear.	pocket rabbit carrot cobweb magnet	thunder sunset picnic goblin button

Statutory requirements	Rules and guidance (non-statutory)	Example words (non-statutory)	
-tch	The sound is usually spelt as tch if it comes straight after a single vowel letter. Exceptions: rich, which, much, such.	catch fetch kitchen ditch latch match witch	notch hutch itch pitch patch notch watch
The /v/ sound at the end of words	English words hardly ever end with the letter v , so if a word ends with a 'v' sound, the letter e usually needs to be added after the 'v'.	have live give love	dove above glove
Adding s and es to words (plural of nouns and the third person singular of verbs)	If the ending sounds like 's' or 'z', it is spelt as -s . If the ending sounds like 'ez' and forms an extra syllable or 'beat' in the word, it is spelt as -es .	cats dogs spends rocks thanks balls	bags catches matches boxes foxes
Adding the endings -ing , -ed and -er to verbs where no change is needed to the root word	-ing and -er always add an extra syllable to the word and -ed sometimes does. If the verb ends in two consonant letters (the same or different), the ending is simply added on.	hunting hunted hunter buzzing buzzed buzzer adding added asking asked ending	jumping jumped jumper running runner playing player played clipped clipping ended
Adding -er and -est to adjectives where no change is needed to the root word	As with verbs (see above), if the adjective ends in two consonant letters (the same or different), the ending is simply added on.	grander grandest fresher freshest faster fastest kinder kindest	quicker quickest lower lowest older oldest harder hardest

<p>4. More prefixes</p>	<p>Most prefixes are added to the beginning of root words without any changes in spelling, but see in- below. Like un-, the prefixes dis- and mis- have negative meanings. The prefix in- can mean both 'not' and 'in'/'into'. In the words given here it means 'not'. Before a root word starting with l, in- becomes il. Before a root word starting with m or p, in- becomes im-. Before a root word starting with r, in- becomes ir-. re- means 'again' or 'back'. sub- means 'under'. inter- means 'between' or 'among'. super- means 'above'.</p>	<p>dishearten dislike dislodge disappoint disagree disappear displease disqualify dishonest disconnect disinfect</p> <p>rebound rebuild recycle recall refill reform retreat return replace revisit replay rewrite submarine submerge</p> <p>antiseptic antisocial anticlockwise</p>	<p>miscount misdeal misfire misfortune mishear misinform misread misbehave misplace mistake miscalculate misplace unable unwell unhappy untidy untrained unlucky unpopular unpick unseen unusual undo untie unzip unofficial unusual undress</p> <p>interactive internet international interrelated</p>	<p>inactive incorrect indefinite incomplete</p> <p>illegal illegible</p> <p>immature immortal impossible impatient impossible impolite impure</p> <p>irregular irrelevant irresponsible</p> <p>superhero superman supermarket superstar</p> <p>autobiography autograph automatic automobile</p> <p>subway subdivide subheading</p>

Notes and guidance (non-statutory)

Teachers should continue to emphasise to pupils the relationships between sounds and letters, even when the relationships are unusual. Once root words are learnt in this way, longer words can be spelt correctly, if the rules and guidance for adding prefixes and suffixes are also known.

Examples:

business: once *busy* is learnt, with due attention to the unusual spelling of the /i/ sound as 'u', *business* can then be spelt as **busy + ness**, with the **y** of **busy** changed to **i** according to the rule.
disappear: the root word *appear* contains sounds which can be spelt in more than one way so it needs to be learnt, but the prefix **dis-** is then simply added to **appear**.

Understanding the relationships between words can also help with spelling. Examples:

- *bicycle* is *cycle* (from the Greek for *wheel*) with **bi-** (meaning 'two') before it.
- *medicine* is related to *medical* so the /s/ sound is spelt as **c**. *opposite* is related to *oppose*, so the schwa sound in *opposite* is spelt as **o**.

As with -ant and -ance/-ancy, the -able ending is used if there is a related word ending in -ation.</p> <p>If the -able ending is added to a word ending in -ce or -ge, the e after the c or g must be kept as those letters would otherwise have their 'hard' sounds (as in <i>cap</i> and <i>gap</i>) before the a of the -able ending.</p> <p>The -able ending is usually but not always used if a complete root word can be heard before it, even if there is no related word ending in -ation. The first five examples opposite are obvious; in <i>reliable</i>, the complete word <i>rely</i> is heard, but the y changes to i in accordance with the rule. Notes and guidance (non-statutory)

Teachers should continue to emphasise to pupils the relationships between sounds and letters, even when the relationships are unusual. Once root words are learnt in this way, longer words can be spelt correctly if the rules and guidance for adding prefixes and suffixes are also known. Many of the words in the list above can be used for practice in adding suffixes.

Understanding the history of words and relationships between them can also help with spelling.

Examples:

- *Conscience* and *conscious* are related to *science*: *conscience* is simply *science* with the prefix *con-* added. These words come from the Latin word *scio* meaning *I know*.
- The word *desperate*, meaning 'without hope', is often pronounced in English as *desp'rate*, but the *-sper-* part comes from the Latin *spero*, meaning 'I hope', in which the *e* was clearly sounded.

Familiar is related to *family*, so the /ə/ sound in the first syllable of *familiar* is spelt as **a**.
